Season's Greetings / Drivesafe Lenses Winter Offer

*We wish all of our patients
Merry Christmas
and a happy New Year*

Glare from headlights and wet roads can be distracting and uncomfortable when driving at night.

Have you tried Zeiss Drivesafe lenses?

They are designed to give you clearer wider vision when your pupils are larger in low light

**Get winter ready with
30% off Drivesafe**

More press coverage than ever is being given to drivers' vision.

When you come for your eye test, we will explain the DVLA standards to you, and check your vision with and without distance spectacles. There are also some eye conditions which should be declared to DVLA so that your insurance is valid. We can advise you on these matters when you have your routine

eye test. For certain occupations, there are different standards and you may need to have a report signed to state that your vision meets the requirements. This is something we can help with.

Don't swerve a sight test

“I'm calling on drivers to have regular sight tests.”

At Sherratt Opticians, we realise how important it is for people to continue driving safely throughout life. We can provide positive solutions to vision problems like glare from headlights and low sun, and are specialists in advising on Individual lens designs.
